Objective :

Enthusiastic junior web developer with basic skills in front-end and back-end development. Excited to work on real-world projects and create user-friendly websites. Passionate about learning new technologies and improving my coding abilities. Looking for a role where I can grow and contribute to a team.

Skills :

JavaScript, HTML, CSS,React, Node.js, Express.js ,Tailwind CSS,Firebase,MongoDB

Education :

Govt M M college, Jashore - Bsc

Session-2019-2020

Projects :

1. **FamView** - Helper.az (A home service platform)

A platform that allows users to get different kinds of services.

Features : Logged in users can add, edit, delete, and view services through a robust CRUD system. They can also book services and manage their own listings. JWT authentication ensures secure access, and all reviews are public for anyone to view.

Technologies : Front-end : React js, Tailwind CSS, DaisyUI

Authentication : Firebase

Back-end : Node js, Express js MongoDB, JSON Web Token (JWT).

2. **Movie site** - Movie Portal (Movie watching platform)

A comprehensive movie portal that allows users to browse and review a wide variety of films. It offers detailed movie information, ratings, and reviews.

Features : Logged in users can add, edit, delete, and view movies through a robust CRUD system. They can also leave reviews for other movies and can update or delete. JWT authentication ensures secure access, and all reviews are public for anyone to view.

Technologies : Front-end : React js, Tailwind CSS, DaisyUI

Authentication : Firebase

Back-end : Node js, Express js MongoDB, JSON Web Token (JWT).
